In the references read above, the Vice Chairman & Managing Director, A.P.S.I.D.C. Ltd., has stated that the Mallampet Mini Lift Irrigation Scheme was constructed on Manjeera River near Mallampet Village, Papannapet Mandal of Medak district to irrigate ayacut of 100 Acres and it was commissioned during 12/1996. An ayacut of 44 acres is being irrigated by the beneficiaries by providing pump sets on Manjeera River themselves and hence the cultivable ayacut is only 56 Acres. The SCs ayacut of 44 acres is not adjacent to the existing ayacut of the scheme and is far away from the ayacut of the scheme and this ayacut is not cultivated by either bore wells or through open wells. The estimate for laying of 180 mm dia PVC pipe line to a length of 3.50 Kms and supply and erection of 15 HP open well submersible 2 Nos. pumpsets is worked out to Rs. 46.40 lakhs to irrigate an ayacut of 44 acres of SCs ayacut. The adhoc beneficiaries committee has given the consent on Rs. 100/- NJS paper for deletion of 44 acres which is being irrigated by the beneficiaries through their own pumping system from original ayacut and inclusion of 44 acres of SC's land in the scheme. The SC farmers have given their consent on Rs. 100/- NJS paper for future maintenance of L.I. Scheme along with the existing committee.

2. Further the Vice Chairman & Managing Director has stated that laying of separate pipe line to SCs ayacut to be taken under SCP, as the SCs ayacut is more than 40% as per the revised guidelines communicated by the Planning Commission, New Delhi. The details of the beneficiaries have been certified by the revenue authorities and the ayacut is arrived as 43.30 acres. The percentage of SCs ayacut under the scheme would be 44% after addition of SCs ayacut and deletion of ayacut being irrigated by the beneficiaries themselves. Hence, the Vice Chairman & Managing Director, APSIDC Ltd., has requested to accord administrative approval for Rs. 46.40 lakhs under State Plan (SCP).
